glidetrakscreens

THE NEW AND EASY EXTERIOR BLIND SYSTEM

Crisp, functional and attractive,
these blinds add an air of style to any home.

For many people it is a difficult task to operate large deck or patio blinds and screens.

Our new track guided exterior screen system, is the IDEAL SOLUTION to create private exterior living areas that are also protected from the elements.

The blind can be easily wound up or down. It will stay at whatever position you require. The blind can be locked in the down position to guard against high winds.

measure & quote.

UNIQUE

What's unique about the Glidetrak Screen system is its newly designed slotted side tracks. This ensures the blind glides up and down smoothly and easily and stops where you want it.

Glidetrak Screens can be fitted onto the face or into the reveal of any rectangular opening. Hood boxes are available to hide the top roller area.

We measure, make and install these great new exterior blinds.

They can be manufactured at any size up to 4000mm wide x 3000mm high

Fabric

- Clear PVC - for wind and rain protection.
- Tint PVC - wind rain and glare reduction.
- ShadeView - create shade and keep your view.

THE NEW AND EASY EXTERIOR
BLIND SYSTEM

For many people it has been a difficult task to operate large window and pergola blinds. Conventional spring loaded blinds have to be pulled down and held down against the tension of the springs while the operator moves from side to side to fasten the bottom of the blind by means of buckles or leather straps. This is time consuming and cumbersome but now there are Glidetrak Screens.
