PANEL CURTAINS

Chic and stylish

PANEL CURTAINS

Panel Curtains are an innovative solution to transform your space with stylish fabric panels to control light, glare, view and privacy.

The soft fabric is the highlight feature with a unique clip in system for the fabric resulting in no visible stitching to elegantly finish each panel. A wand attached to the end of the panel makes it so easy to operate. Designed to be child safe the added benefit of no loose cords makes this the perfect solution in a family home.

When the curtain is closed there is no gap between the panels and then the fabric panels slide easily to the side, stacking tidily behind each other in the open position.

These Panel Curtains are a fantastic option for larger windows and doorways. Also ideal when used as a room divider creating new living spaces without the need for bottom tracks.

Make a fashionable statement with lightfilter or blockout fabrics or even mix and match the fabrics to create a chic designer statement.
