**Where convenience  
meets innovation.**

Whether dealing with hard-to-reach windows or looking for an easy way to manage light and privacy, our innovative motorisation solutions ensure a seamless, hassle-free experience.

Using quiet and energy-efficient solar-powered motors for our shutters and easily rechargeable battery-powered motors for our blinds helps you effortlessly control your window furnishings with a remote or a single touch.

# The art of convenience

**Sought after for their modern convenience and sleek style, window treatments with next-generation motorisation technology offer numerous benefits.**

### **Convenience**

Motorised window treatments allow easy control without the need for manual adjustments, making them ideal for hard-to-reach windows. The system integrates with smart home platforms like Google Assistant, Amazon Alexa and Apple HomeKit, enabling remote control via smartphone, tablets or voice commands.

### **Energy efficiency**

Programme your motorised window treatments to open and close at specific times, maximising natural light and reducing energy costs. Automated schedules help optimise energy efficiency, adjusting window coverings to suit different times of the day.

### **A safer choice**

Motorised window treatments eliminate the need for cords, making them a safer option for homes with children and pets, providing peace of mind without sacrificing style.

### **Ease of use with advanced technology**

Equipped with quiet, energy-efficient motors and intuitive controls, these window treatments offer seamless operation. The smartphone app allows for detailed customisation, including multiple scenes and schedules, enhancing convenience and user experience.

### **Seamless control at your fingertips**

The system supports multiple channels and shades, allowing users to easily adjust settings for optimal light control and privacy.

With simple commands, you can quickly shift between preferred positions, integrating effortlessly into your daily routines.

# Motorisation options

Choose the convenience that suits your lifestyle with motorised interior shutters and blinds.

## Interior shutters

### Long-lasting battery life

Our shutters, equipped with durable lithium-ion batteries, operate for months on a single charge. They feature a built-in USB port for easy charging and solar panels for an eco-friendly solution.

### Versatile control options

Adjust your shutters to your liking with manual settings, the SmartDial remote or a phone app. The SmartDial remote allows quick selection of pre-set positions or custom settings, making it simple to achieve the perfect light and privacy.

### Child and pet safe

Our shutters include a smart feature that stops the louvres when an obstruction is detected, keeping curious hands and playful pets safe. The anti-jam technology ensures seamless operation while maintaining safety.

Our motorised components have a three year warranty for extra peace of mind.

## Interior blinds

### Easy charging options

Norman's PowerBar innovation slots directly into the headrail of Thermacell Honeycomb Blinds for hassle-free charging, no ladder required.

For added flexibility, choose rechargeable lithium-ion batteries and an AC adaptor plug-in for continuous power.

### Safe and convenient

Norman's single touch operation makes shade control effortless. Simply touch the shade to stop, raise, or lower it instantly. The auto brake feature stops the shade if it encounters an obstruction, ensuring safety for homes with kids and pets.

### Universal unique remote control

Setting your favourite shade positions has never been easier. Connect multiple shades to a single remote and adjust the light from any room.

Setting your favourite shade positions is easy!

## Experience the ShadeAuto Hub and App

### Control your whole house of shutters and blinds from anywhere with the ShadeAuto Hub and App.

Boost family productivity and comfort with regular schedules, and enhance home security with security mode, which automatically closes your shutters at sunset or when you're away.

Manage your settings through voice, app or remote for seamless operation to suit your busy lifestyle. The ShadeAuto Hub and App is compatible with Android, iOS and other major voice control systems.
