**Where simplicity
meets innovative
insulation
engineering.**

**Experience the difference of thermacell
honeycomb blinds, featuring a unique
D-Cell structure that traps air to provide
insulation and energy savings.**

Enjoy a cozy, warm home in winter and a cool retreat in summer, all while enhancing any room with their sleek, modern design. Thermacell blinds are a breakthrough in energy efficiency, reducing heat loss by up to 60%.

The innovative honeycomb structure traps air between the cells, maintaining optimal temperatures in your home throughout every season.

The be-all and end-all shade

More design options

Choose from different cell size and over 70 sheer, light filtering or room darkening fabrics to create the perfect solution for your home.

Reduce noise

Thermacell or Honeycomb Blinds can block out light and help contribute to noise reduction. Their unique design makes them a perfect choice for kids' rooms or any bedroom.

Top Down Bottom Up

Looking for an all-in-one solution? Top Down Bottom Up Thermacell Blinds cleverly let you adjust anywhere in the window. Effortlessly lower the top for natural light while keeping the bottom private or raise the bottom for light below while maintaining privacy above.

Award winning operating systems

A smart fit

The unique design of SmartFit eliminates the need for a fixed rail position and middle cords for less light leakage, enhanced safety and a sleek profile that doesn't obstruct your view.

Choose cordfree

With just a touch, effortlessly brighten your room or create a cozy ambience, with a design that adjusts precisely to your preferred settings.

Motorisation

Achieve your desired lighting with a simple voice command, a tap on your phone, remote, or the bottom of the shade.

Wireless charging wand

For ultimate convenience opt for our effortless wireless charging wand. Norman®'s PowerBar innovation slots directly into the headrail for hassle-free charging.
